*The image of the Welfare Queen still dominates white Americas perceptions of Black women. It is an image that also continues to shape our governments policies concerning Black womens reproductive decisions. Proposed legislation to alleviate poverty focuses on plans to deny benefits to children born to welfare mothers and to require insertion of birth control implants as a condition of receiving aid. Meanwhile a booming fertility industry serves primarily infertile white couples. In Killing the Black Body, Northwestern University professor Dorothy Roberts exposes Americas systemic abuse of Black womens bodies, from slave masters economic stake in bonded womens fertility to government programs that coerced thousands of poor Black women into being sterilized as late as the 1970s. These abuses, Roberts argues, point not only to the degradation of Black motherhood but to the exclusion of Black womens reproductive needs from the feminist agenda. Groundbreaking, authoritative, and timely, Killing the Black Body is both a powerful legal argument and a valuable aid for teachers, activists, and policy makers in creating a vision of reproductive freedom that respects each and every American.*
