V7-PDF90452 | 2014-09-15 | 9 Pages | Size 240 KB

Zambia's economy is not growing fast. Poverty is on the rise. The quality of economic governance is on the decline. And public resources are not well spent. The badly needed first steps to reverse this situation are to start getting the budgetary allocations right and to make sure those allocations go where they're intended. Addressing the longstanding challenges that Zambia faces in public expenditure management will require strong political will. For Zambia to assure that public accountability is enduring and not dependent on the government of the day, it must strengthen budget processes and institutions that can provide public oversight and promote basic checks and balances. This report provides an analysis of how Zambia can strengthen budgetary processes and institutions for accountability and effective service delivery to its citizens.
