*Despite following the advice of a wealth of bestselling self-help books, most of us still no closer to understanding the fundamental laws and principles that govern the universe, our interactions within it and our ability to achieve success, health, wealth and happiness. Have you ever wondered why the Law of Attraction doesn't work for you? There is a very rational reason why. Quite simply, the Universal Laws CANNOT work in your favour until we identify and remove the psychological issues that are blocking our ability to manifest our goals and desires. In her ground-breaking and easy-to-understand book, UKCP and BACP accredited psychotherapist Deborah Sless, uses the concrete psychological theory of Transactional Analysis to uncover the secrets behind the Universal Laws and explain how they really work. By joining her on this journey of self-discovery, readers will begin to understand: \* The Universal Laws and their significance in our daily lives \* Our own individual Life Story and the beliefs we formed in childhood that continue to impact us today \* How to achieve freedom from our illusions and move towards genuine self development \* The concept of Spirit as an energy force and how to tap into it Deborah Sless's accessible and straight forward approach draws on more than 20 years experience in private psychotherapy practice and spiritual counselling. In Beyond Our Illusions, she provides readers with the tools and framework they need - through clear explanations, examples and exercises - to begin a journey of discovery, change and fulfilment.*
